

## **SOURCES FOR NATIVE PLANTS IN SOUTHEAST MICHIGAN**

Support the growers who supply true native plants! Buy from them to increase their market. Ask for native plants at traditional garden centers, too, so they will stock them.

### **WildTypes**

<https://www.wildtypeplants.com/>

Propagators of over 300 species of Michigan native plants. Container grown wildflowers, grasses, trees, and shrubs from Michigan genotypes. Wildtype is primarily a wholesale producer. We hold a limited number of public sale days each season. Shopping on those days is by appointment only. Also provides ecological services including invasive species control, botanical surveys, native plant installation, ecological restoration and native landscape maintenance.

900 N Every Rd. Mason, MI 48854

517-244-1140

[info@wildtypeplants.com](mailto:info@wildtypeplants.com)

### **Detroit Abloom**

<https://www.detroitabloom.com/>

Offers an on-line native plant store with plant pick-ups scheduled in May. Some of the plants they grow themselves, some they buy from the Wildtypes nursery. Detroit Abloom's garden is wonderful to visit, to see these plants full-grown.

Located in Detroit near the Alter Road boundary with Grosse Pointe Park. The two locations are just a few blocks apart. 313 434-5121

Headquarters and Hoop House – 313 Newport Street Detroit, MI 48215

Garden and Pavilion – 248 Manistique Street Detroit, MI 48215

### **Yardeners of St. Clair Shores**

An all-volunteer club of gardeners. They will have a native plant sale in June at the Selinsky-Green Farmhouse Museum, at the parking lot behind the St. Clair Shores Public Library and municipal building at the foot of 11 mile road. Yardeners has an annual Yardeners Garden Tour in August; offers a plant exchange (not all native plants) in September; and has occasional lectures and a newsletter.

## **Feral Flora**

[www.feral-flora.com](http://www.feral-flora.com)

Feral Flora creates living landscapes with a sense of place using native and nearly native plants in a naturalistic style. From a small urban garden to installing 25 acres of native seed, we can help you select the right plants for long-lived, low maintenance, low input garden that is beautiful and alive with life. Feral Flora principally grows Michigan-native plants from wild collected seed. Additionally, we offer some 'nearly native' plants.

You can order plants online and arrange for pick-up dates in May. Check their website for other dates and locations where they offer plants for sale.

3825 Nixon Rd., Ann Arbor, MI 48105

Phone: (734) 224-2080

## **New Leaf Natives and Creating Sustainable Landscapes, LLC**

<https://newleafnatives.com/>

Offers wholesale but also retail, good source for 38 plug flats to buy plants in the large numbers needed for dense natural plantings. Very efficient online ordering system.

Creating Sustainable Landscapes, LLC is a Southeast Michigan company dedicated to helping landowners who want landscapes that utilize sound ecological principles, the foundation of which uses native plants.
